

ARIZONA TOGETHER

STAY HEALTHY | RETURN SMARTER | RETURN STRONGER

COVID-19 HAS
CHANGED OUR WORLD

“The COVID-19 pandemic is the single greatest global peacetime catastrophe that humanity has suffered since the end of the Second World War. Barely months into what promises to be a multiyear disaster, the pandemic has already cost America alone over 100,000 lives, tens of millions of jobs, and trillions of dollars in lost output, income, and wealth. The ultimate toll for the world as a whole from this pandemic — both the direct and the indirect consequences — may still lie beyond imagining.”

— National Review

COVID-19
**IS WIDESPREAD

OBJECTIVE:
**SAVE LIVES &
PROTECT LIVELIHOODS**

SLOW THE VIRUS

PROTECT THE MOST
VULNERABLE

WEAR A MASK 

EVERY ARIZONAN NEEDS TO DO THEIR PART

RETURNING SMARTER

- We know that COVID-19 is still widespread in our community
- Vulnerable individuals should limit their time away from home

PHYSICAL DISTANCE

WASH YOUR HANDS

STAY HOME WHEN SICK

LET'S MAKE IT CLEAR:
YOU ARE SAFER AT HOME

SAFER AT HOME: QUESTIONS TO CONSIDER BEFORE GOING OUT

- How many people will you interact with?
 - Interacting with more people raises your risk.
 - Being in a group with people who aren't social distancing or wearing cloth face coverings increases your risk.
 - Engaging with new people (e.g., those who don't live with you) also raises your risk.
 - Some people have the virus and don't have any symptoms, and it is not yet known how often people without symptoms can transmit the virus to others.

SAFER AT HOME: QUESTIONS TO CONSIDER BEFORE GOING OUT

- Can you keep 6 feet of space between you and others? Will you be outdoors or indoors?
 - The closer you are to other people who may be infected, the greater your risk of getting sick.
 - Keeping distance from other people is especially important for people who are at higher risk for severe illness, such as older adults and those with underlying medical conditions.
 - Indoor spaces are more risky than outdoor spaces where it might be harder to keep people apart and there's less ventilation.

SAFER AT HOME: QUESTIONS TO CONSIDER BEFORE GOING OUT

- What's the length of time that you will be interacting with people?
 - Spending more time with people who may be infected increases your risk of becoming infected.
 - Spending more time with people increases their risk of becoming infected if there is any chance that you may already be infected.

HOLDING BAD ACTORS
ACCOUNTABLE

HOLDING THE BAD ACTORS ACCOUNTABLE

NEW GUIDANCE ISSUED LAST WEEK

- Increased measures that establishments MUST take to protect their employees and their customers
- Provided local authorities with the ability to take enforcement action when a violation occurs

HOLDING THE BAD ACTORS ACCOUNTABLE

NEW:

- On Tuesday, Scottsdale authorities filed charges on an establishment named Riot House, and reported additional violations to the Department of Liquor Licenses and Control.
- They're not alone. Yesterday the Department of Liquor sent a final notice to comply to the following establishments:
 - Riot House
 - Bottled Blonde
 - Pattie's
 - Casa Amigos
 - El Hefe
 - International
 - Maya Day Club
 - Hi-Fi

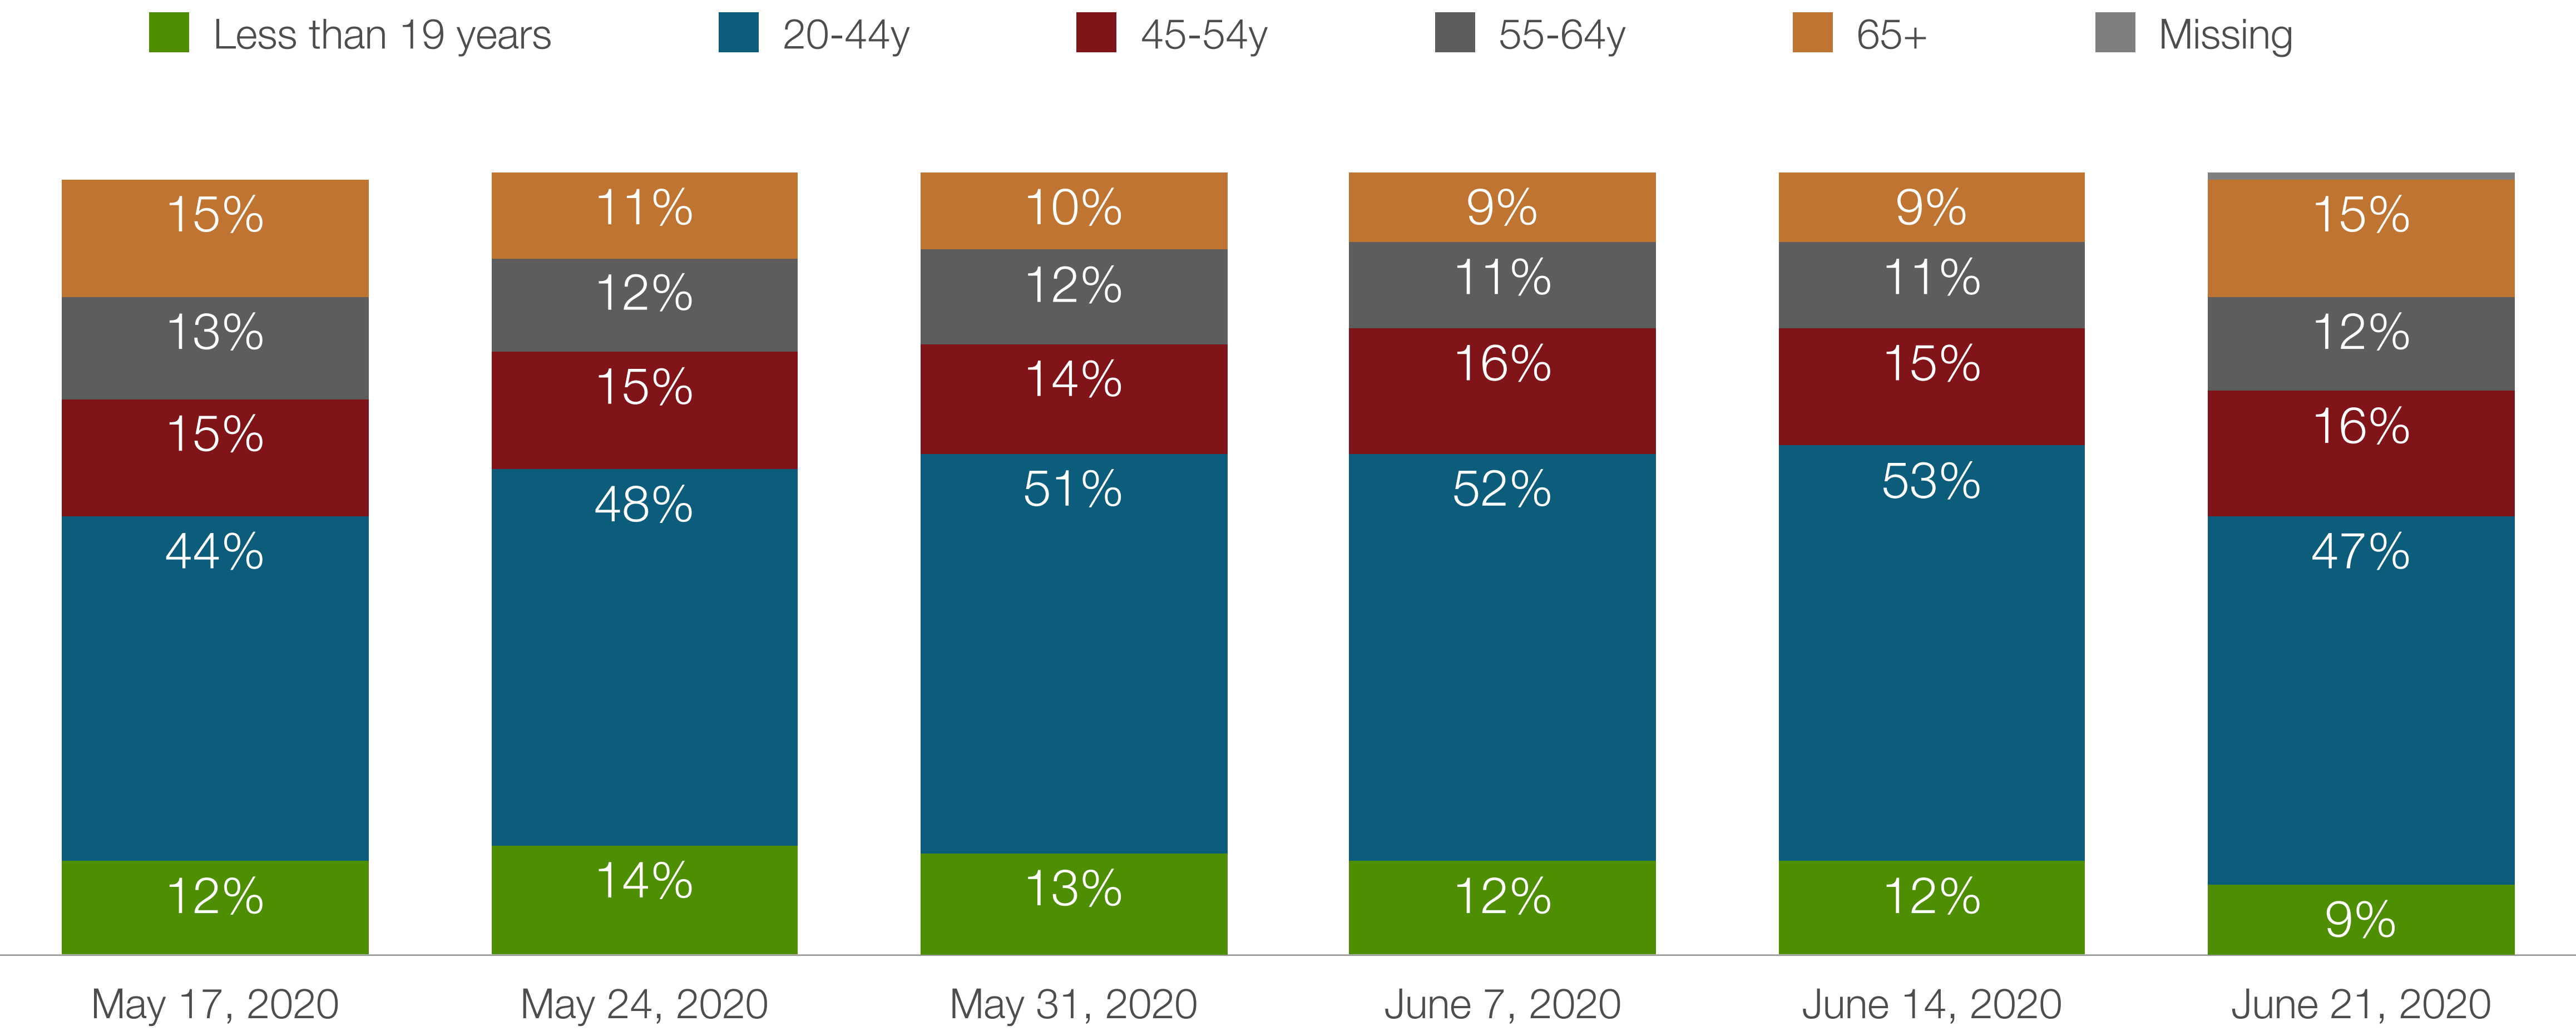

WHAT ARE WE SEEING BY
AGE GROUP?

CASE GROWTH BY AGE

● Less than 20 ● 20-44 ● 45-54 ● 55-64 ● Greater Than 65 ● Report Pending

WEEKLY COVID-19 CASES BY AGE

HOSPITALIZATIONS BY AGE

● Less than 20 ● 20-44 ● 45-54 ● 55-64 ● greater than 65

463,800

Serology
155,343

TESTING IS IMPORTANT

Allows Public Health to Identify Cases and Contain the Spread

- Testing has more than DOUBLED since stay-at-home expired
 - May 15th: 159,421 PCR tests
 - Today: 463,800 PCR tests
- Testing has increased by more than 1100% since April 15th
 - April 15: 47,398 PCR tests
 - Today: 463,800 PCR tests

DR. CARA CHRIST

ARIZONA DEPARTMENT OF HEALTH SERVICES

INCREASING TEST COLLECTION SITES

Increasing Testing in Maryvale

- Working with community providers to increase community testing in the W. Phoenix/Maryvale area.
- We offered contract support, assistance with collection kits, national guard, courier service, and lab testing.
- Providers include: CVS, Walgreens, Akos MD, Equity Health, ASU, CLPC

INCREASING TEST COLLECTION SITES

Increasing Testing Statewide

- 62 additional sites added to the azhealth.gov/COVID19testing

Innovative Partnerships

- Working to implement indoor community testing in partnership with Banner, LabCorp, ASU, and other partners

EXPANDING TESTING CAPACITY

- An additional Roche testing machine was secured for Sonora Quest Laboratories to expand testing in the state.
- Over the weekend, ADHS provided 10,000 specimen collection kits to Sonora Quest Laboratories to assist with increased demand.

EXPANDING TESTING CAPACITY

- ADHS is providing additional funding to increase collection sites to expand access.
- Providing \$1 million each to Sonora Quest Laboratories and TGen to support COVID-19 testing.
- Distributing 51,462 specimen collection kits to healthcare partners, laboratories, and local health departments.
- Assisting with procuring equipment, reagents, test kits, and testing supplies for Arizona testing laboratories.

PROMOTING TEST FROM HOME OPTIONS

- Partnering with LabCorp to promote At-Home Testing
 - Contact Tracing
 - Workplace testing

CORRECTIONAL FACILITIES

Testing Updates

- Staff
 - SQL serology testing of staff - 45 positive of 645 tested (7.44%)
- Inmates
 - Planning to test all inmates with PCR
 - Contract being established for testing

Infection Control

- In person site visits to provide technical assistance through ICARs

PROVIDING SUPPORT
TO OUR HOSPITALS &
DOCTORS

EXTENSION OF GOOD SAMARITAN EXECUTIVE ORDER

- Healthcare workers have been supporting Arizona through this outbreak, and we want to be sure to support THEM
- We want them to make the best possible choices, to save the most number of people, to help everyone that they can, under approved protocols, without concern for liability
- The extension of the executive order provides immunity protections for all health care workers in our response against COVID-19

ADDITIONAL ACTIONS TO SUPPORT HOSPITALS

- Arizona Surge Line
- Post Acute Care Capacity Tracker (PACCCCT) Line
- Technical assistance on implementing surge plans
- Public Health is assisting with staffing needs at individual hospitals
- Developing a new, centralized model of nurse placement across the hospitals in the state
- Providing other resources as needed

SLOW & CONTAIN
THE SPREAD

CONTACT TRACING

- Statewide Contact Tracing Plan developed and implemented
- Onboarding National Guard, including bilingual guardsman
- Partnering with Chicanos Por La Causa to provide bilingual contact tracing
