**WHEREAS**, on March 11, 2020, pursuant to A.R.S. §§ 26-303 and 36-787, I, as Governor of the State of Arizona, issued a declaration of a Public Health State of Emergency due to the necessity to prepare for, prevent, respond to, and mitigate the spread of COVID-19; and

**WHEREAS**, on March 30, 2020, the Director of the Arizona Department of Health Services (ADHS), based on an epidemiological assessment of Arizona specific data and in alignment with the Centers for Disease Control and Prevention (CDC) guidance, recommended the State implement enhanced mitigation strategies which are continuing; and

**WHEREAS**, on May 12, 2020, Executive Order 2020-36, *Stay Healthy, Return Smarter, Return Stronger*, was issued directing businesses, institutions, professions and entities to develop, establish and implement policies to mitigate COVID-19; and

**WHEREAS**, on June 17, 2020, Executive Order 2020-40, *Containing the Spread of COVID-19*, was issued requiring businesses to enforce COVID-19 mitigation protocols and allowing local governments to adopt policies regarding the wearing of face coverings in public to mitigate the spread of COVID-19 while still keeping businesses open to the greatest extent possible; and

**WHEREAS**, on June 29, 2020, due to rising case numbers in the state, Executive Order 2020-43, *Pausing of Arizona's Reopening*, was issued pausing the operations of certain business determined high risk by public health entities and limitations of organized public events were put in place to limit the spread of COVID-19 and was continued by Executive Order 2020-52 and portions regarding public events were amended by Executive Order 2020-59, *Further Mitigation Requirements for Events*; and

**WHEREAS**, on July 9, 2020, Executive Order 2020-47, *Reducing the Risk, Slowing the Spread*, was issued limiting capacity of restaurants to slow and limit the spread of COVID-19 while still keeping them open; and

**WHEREAS**, on August 10, 2020, the Director of ADHS, under the authority delegated by A.R.S. § 26-307, adopted Emergency Measure 2020-02, *Slowing the Spread of COVID-19: Phased Reopening*, which implemented capacity requirements for high and medium risk businesses to mitigate the spread of COVID-19 while ensuring they were able to stay open and operate to the greatest extent possible; and

**WHEREAS**, since that time and into January 2021, Arizona saw increases in cases and deaths that exceeded those seen during Arizona's first wave of COVID-19; and

**WHEREAS**, as of March 5, 2021, there have been 823,384 diagnosed cases of COVID-19 in Arizona including 16,269 deaths; and

**WHEREAS**, Operation Warp Speed ("OWS") accelerated development, production and distribution of COVID-19 vaccines, therapeutics, and diagnostics to produce and deliver doses of safe and effective vaccines; and

**WHEREAS**, Arizona has taken the position that immunization with a safe and effective COVID-19 vaccine is a critical component of the whole government strategy to reduce COVID-19 related illnesses, hospitalizations, and deaths and to help restore societal functioning; and

**WHEREAS**, on December 16, 2020, Arizona administered its first COVID-19 vaccines and since that date has inoculated two million Arizona citizens; and

**WHEREAS**, in continuing efforts to mitigate, respond and recover from COVID-19, the deployment of the COVID-19 vaccine in Arizona has become a game changer in mitigating and responding to COVID-19; and

**WHEREAS**, as more and more of Arizona's population becomes vaccinated, the risk previously posed by COVID-19 that our healthcare institutions will exceed capacity is decreasing as Arizona has seen the number of cases continue to decrease over the last seven weeks; and

**WHEREAS**, with this decreasing risk there is the ability to strategically loosen some restrictions while others remain in place; and

**WHEREAS**, it is necessary to ensure clarity on those mitigation efforts that continue to remain in effect; and

**WHEREAS**, even as some restrictions are lifted, the data must continue to be monitored to determine the impacts of opening businesses on the rates of COVID-19 Like Illnesses (CLI) in our community to ensure that such actions are not negatively impacting the strides made to our healthcare system; and

**WHEREAS**, pursuant to A.R.S. § 36-787(A), during a State of Emergency declared by the Governor, ADHS has primary jurisdiction, responsibility and authority for:
